A practical working library, not a list of one-line ideas.

# Start here

1. Copy an entire prompt into ChatGPT or another compatible AI assistant.

2. Replace bracketed fields such as [PRODUCT], [AUDIENCE], and [DRAFT].

3. Provide real source information when asked; do not leave critical facts to guesswork.

4. Check the output, especially claims, numbers, policy/legal advice, and externally sourced information.

5. Follow up with: 'Critique your draft against the requirements; correct any unsupported claims and missing pieces.'

Compatibility: General-purpose text AI systems. Results vary by model and quality of your input.

Terms: You may use and adapt these prompts in your own work or client projects. Do not redistribute or resell these files or the prompt collection as a competing product.

## PROMPT 01 Clear Email from Rough Notes

Copy from below:

You are a skilled specialist helping me with this task.

**OBJECTIVE**
Turn messy notes into a polished email that reaches the desired outcome.

**INPUTS**
[ROUGH_NOTES], [RECIPIENT], [DESIRED_OUTCOME]

**RULES**
Preserve every critical fact; do not invent dates or commitments. Keep under [WORD_LIMIT] words and use [TONE].

**REQUIRED OUTPUT**
Give a subject line, full email, and one shorter alternative.

If essential information is missing, first ask up to three targeted questions. Otherwise proceed, clearly identifying any assumptions. Use specific, natural language rather than filler.

## PROMPT 02 Ideal Customer Profile

Copy from below:

You are a skilled specialist helping me with this task.

**OBJECTIVE**
Build a testable profile of who is most likely to buy.

**INPUTS**
[PRODUCT], [CUSTOMER_NOTES], [PRICE]

**RULES**
Separate observed evidence from hypotheses; do not claim demographic certainty.

**REQUIRED OUTPUT**
Provide buyer situations, pains, triggers, objections, and validation questions.

If essential information is missing, first ask up to three targeted questions. Otherwise proceed, clearly identifying any assumptions. Use specific, natural language rather than filler.

## PROMPT 03 Distinctive Brand Name Generator

Copy from below:

You are a skilled specialist helping me with this task.

**OBJECTIVE**
Invent brand names that fit a clear position and pronunciation style.

**INPUTS**
[PRODUCT_CATEGORY], [PERSONALITY], [NAME_CONSTRAINTS]

**RULES**
Avoid near-copies of known brands; note that legal/domain checks remain necessary.

**REQUIRED OUTPUT**
Offer 25 names in five style families, with short rationales.

If essential information is missing, first ask up to three targeted questions. Otherwise proceed, clearly identifying any assumptions. Use specific, natural language rather than filler.

## PROMPT 04 Weekly Priority Reset

Copy from below:

You are a skilled specialist helping me with this task.

**OBJECTIVE**
Turn a chaotic task list into a feasible weekly plan.

**INPUTS**
[CURRENT_TASKS], [DEADLINES], [AVAILABLE_HOURS]

**RULES**
Identify hard deadlines and dependencies; don't pack every free hour.

**REQUIRED OUTPUT**
Return top 3 outcomes, daily allocations, and work to defer.

If essential information is missing, first ask up to three targeted questions. Otherwise proceed, clearly identifying any assumptions. Use specific, natural language rather than filler.
